

Volunteers needed for Research Study

VA RR&D

NCRAR

The National Center for Rehabilitative Auditory Research (NCRAR) of the Portland VAMC needs volunteers for a research study to examine whether we can improve hearing aid satisfaction with a new test and explanation of test findings.

Participants will have a hearing test and a listening to speech test, complete some questionnaires, and will have their test results explained to them in detail.

We need volunteers who use hearing aids aged between 45 and 75 years to take part.

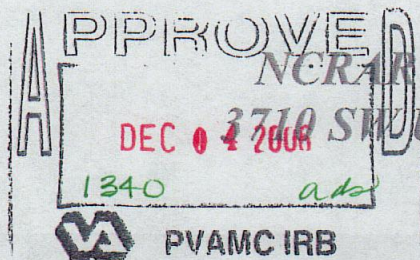

If you might be interested in taking part or want more information please call:

***Ms. Silverman at (503) 220-8262 ext. 57385
(or 57385 from an internal phone).***

An appointment for a hearing test will be arranged to see whether you meet the study criteria. The study will require two visits of about 2 hours each to the NCRAR.

You will receive \$20 per visit for your participation. This is a research study and should not be considered as treatment, thus there are no potential health benefits

To verify the validity of this study and its authorized contacts you may call Portland VA Medical Center Research Services at 503-273-5122

*NCRAR is located at the Portland VA Medical Center,
3710 SW Veterans Hospital Road, Portland OR 97207*
